Software Asset Management (SAM) - Core

QUESTION: 42

DRAG DROP

You need to help an organization program through each level of the Microsoft SAM Optimization Model (SOM). In which order should you progress through the levels? To answer, drag the maturity levels to the correct project phases. Each maturity level may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content. **NOTE:** Each correct selection is worth one point.

Maturity levels		Project phase	Maturity level
Basic		Phase 1	Maturity level
Dynamic		Phase 2	Maturity level
Rationalized		Phase 3	Maturity level
Standardized		Phase 4	Maturity level

Answer:

Exhibit

Project phase	Maturity level
Phase 1	Basic
Phase 2	Standardized
Phase 3	Rationalized
Phase 4	Dynamic

QUESTION: 43

This question requires that you evaluate the underlined text to determine if it is correct. An organization that achieves the Dynamic Microsoft SAM Optimization Model (SOM) level has SAM data available but typically does not use it for decision marking. Review the underlined text. If it makes the statement correct, select "No change is needed." If the statement is incorrect, select the answer choice that makes the statement correct.

- A. No change is needed.
- B. Basic
- C. Standardized
- D. Rationalized

Answer: A

QUESTION: 44

You are conducting a SAM assessment survey for a customer. The customer does not have documented SAM processes or a dedicated SAM team. You need to capture the details of the customer's undocumented SAM processes. What should you do?

- A. Review purchase orders from the last 12 months to identify software purchasing patterns.
- B. Request System Center Configuration Manager (ConfigMgr) software inventory reports from IT.
- C. Collect software inventory by using the Microsoft Assessment and Planning Toolkit (MAP).
- D. Conduct a meeting with managers from IT, Finance, and purchasing.

Answer: D

QUESTION: 45

You complete an assessment to evaluate an organization's current Microsoft SAM Optimization Model (SOM) level. You identify the key competencies of the model. You need to present to management a benefit of using SAM. Which benefit should you present?

- A. license entitlement records
- B. cost savings
- C. SAM improvement plan
- D. acquisition process

Answer: A

QUESTION: 46

This question requires that you evaluate the underlined text to determine if it is correct. An organization's Microsoft SAM Optimization Model (SOM) maturity level is Basic. The organization accounts for 20 percent of assets in a centralized repository. To reach the SOM Rationalized maturity level, the organization must have 50 percent of the assets in a centralized inventory. Review the underlined text. If it makes the statement correct, select "No change is needed." If the statement is incorrect, select the answer choice that makes the statement correct.

- A. No change is needed.
- B. 75

- C. 96
- D. 100

Answer: D

QUESTION: 47

You plan to assess your customer's Microsoft SQL Server deployment for license compliance. The customer licenses SQL Server by using per-processor licenses. You need to define the scope of the SAM assessment. What should you do?

- A. Identify infrastructure groups where SQL Server is accessed.
- B. Gather all SQL Server Client Access Licenses (CALs).
- C. Gather all Windows Server Client Access Licenses (CALs).
- D. Identify infrastructure groups where SQL Server is installed.

Answer: A
